Associated General Contractors of Western Kentucky (AGC) Chapter Safety Awards - 2018

AGC Chapter Safety Awards Program

The AGC Safety Committee has established a Chapter Safety Awards Program to recognize the safety efforts of members of the association. This will promote the importance of safety in the construction industry for both the chapter and individual companies.

Classification of Participants:

AGC members are eligible to participate in one of the following categories:

- General Contractor
- Residential Contractor
- Specialty/Subcontractor
- Service Provider/Associate

To recognize the safety efforts of both small and large companies within the association, each category will be separated into different work hour divisions. This will allow companies to compete against other companies of similar size.

How the Program Works:

Data received is tabulated to produce a total lost workday case incident rate (excluding restricted work days). Multiply the lost workday cases times 200,000 divided by total work hours.

The formula is expressed as follows: Incidence Rate = $\frac{N \times 200,000}{WH}$

WH is the number of work hours for the calendar year 2018 (including office hours). **N** is the lost workday cases, which represents the number of incidents resulting in days away from work, but does not include restricted activity. **N** is obtained by counting the total number of entries in either column (H) of the 300 Log or column (H) under the Number of Cases on the 300A Summary Form.

Complete the tabulation form and fax, e-mail, or mail it to the AGC office by **12:00 noon, Tuesday October 30, 2018** to participate in the 2018 Chapter Safety Awards program.

Winners in each category will receive a plaque and be recognized in the Western Kentucky CONSTRUCTOR Magazine and local newspaper.

**AGC CHAPTER SAFETY AWARDS
2018
TABULATION FORM**

Company Name
(type or print on line above)

Category: (check one)

- General Contractor
- Residential Contractor
- Specialty/Subcontractor
